About DICP
The Office for Diversity Inclusion and Community Partnership (DICP) was established in 2002 (originally named Faculty Development and Diversity, est. 1995) to promote the increased recruitment, retention and advancement of diverse faculty, particularly underrepresented minority (URM) faculty, at Harvard Medical School and to oversee all diversity activities involving HMS faculty, trainees, students and staff.

About VCP
The Visiting Clerkship Program provides support for fourth-year and qualified third-year minority medical students to participate in the HMS Exchange Clerkship Program. The Program is designed to increase medical students' awareness of opportunities in academic medicine and their consideration of an academic training program for internship and residency, and especially to increase the number of minority students applying to HMS-affiliated hospital training programs.
