Challenging Biological Essentialism with Embodied Histories of Health Inequities with Nancy Krieger
5:00 – 7:00 PM
Location: Plimpton Room, Barker Center 133, 12 Quincy Street, Cambridge
A lurking biological essentialism infuses contemporary research on “health disparities.” Mindful of the long reach of early 20th century mainstream eugenics, biological sexism, and the long
shadow of Jim Crow, this talk discusses how NIH presents “health disparities” in its strategic documents and its new mandate to account for sex, but not also gender, in all studies. More info: http://wgs.fas.harvard.edu/event/gender-and-sexuality-seminar-series-title-tbd-talk-nancy-krieger

Wednesday, March 22, 2017
Lunch and Learn: Sexual Orientation Disparities in Reproductive Health
12:30 – 1:30 PM
Location: TMEC 209
The LGBT Office brings you Brittany Charlton, ScD, Instructor Boston Children’s Hospital and Harvard Medical School to discuss her research on the development and prevention of sexual orientation group disparities, with a focus on reproductive health. She will review newly documented sexual orientation-related disparities in areas like Pap tests, contraceptive use, pregnancy, and abortion. Areas for potential intervention will also be discussed including at the personal, family, provider, and policy level.
